January 1, 2022

Dear Customer,

What a crazy ride we have been on over the last couple of years! We want to thank you for sticking with us and trusting us to continue to supply pottery for your customers.

We want you to know that we are doing absolutely everything we can to address the difficulties we are facing in this industry.

2022 will be a very challenging year. Supply chain problems will continue to be our biggest concern.

The costs associated with these issues will be apparent as you browse through our 2022 catalog. Factory prices have skyrocketed due to increases in labor, materials, and energy costs. International freight charges have increased almost 10-fold in many cases, between ocean freight rates and other additional fees we are incurring.

While raising prices was inevitable, we reduced our margin on most items in order to minimize the impact to our customers. We are confident this situation is temporary, and we will begin reducing prices as soon we are able.

Please be sure to check our website for the latest new product, prices and availability throughout the year. As always, our sales reps have the most current information, and can help to answer any questions you may have.

Sincerely,
Washington Pottery Company

GENERAL INFORMATION:

Washington Pottery Company is a direct importer of fine pottery and goes to extensive lengths to provide you with the highest quality products from family owned pottery factories worldwide. We are in continuous contact with our factories to be able to extend to you the very best price, quality and service.

All of our factories produce premium products and provide dependable delivery directly to our Kent warehouse. We distribute our products, usually with our own trucks, to our customers throughout the Northwest. Most of our customers are garden centers, nurseries, landscapers, interior designers, and florists. Although we do supply product nationwide, our focus is geared toward customers in the greater Northwest.

Many items we carry are individually hand crafted, and therefore may have slight color or size variation, smudges, or firing cracks, all of which are features of handmade pottery. No two pots are exactly alike, and every piece is a handcrafted work of art with its own character.

We take tremendous pride in our customer service and offer an unparalleled relationship with our customers. You can expect nothing but the best in service. Simply choose the colors and styles you want from a vast selection of products in our catalog and we will take care of the rest.

Our mission is to help you be successful in any way we can. So please give us a call at 425-656-7277 and let us know what we can do for you!
